

Dear Learning Coaches and 2nd Graders,

You *might* be feeling frustrated because the K12 OLS system has been running slow and at times not even working. This means you cannot do your daily plan or join the class connect sessions. I **understand!** It is running slow for me too and at times I cannot get in to do my work. That is okay! There is other work that you can be doing on days like these! Learning coaches you can even log attendance from our K12 mobile application! Get it here:

<http://www.k12.com/mobile-apps/online-school>

Here are some ideas to keep you busy when the OLS is broken and being bandaged up and fixed (check here for updates <http://help.k12.com/> or our classroom

Facebook page)! The first priority is to **always** do some work in MobyMax and then you can move on to the other fun ideas! And Learning Coaches check out these K12 free mobile friendly applications while you're downloading the attendance application: <http://www.k12.com/mobile-apps/k-8#.UvvG7eJFCM4>

Ideas	Website Links	Passwords/ User Names	Attendance
Login to http://MobyMax.com	http://MobyMax.com	Username: YourstudentID@mvca Password: mvca	Keep track of your MobyMax hours and log them using the K12 attendance application or when the OLS is up and running under technology or subject area!
